June 20 <sup>th</sup>	Moncton, NB	June 6 <sup>th</sup>	
June 23 <sup>rd</sup>	Dartmouth, NS	June 9 <sup>th</sup>	

This program is intended for technicians who require certification to install and program Fire-Lite addressable control panels. This 1-day instructor-led training class provides practical experience on programming Fire-Lite's Endurance Series addressable fire alarm control panels using FS-Tools programming tool, a free utility available on our web site. Students will work on a complete system that includes the main panel, LED annunciators, addressable initiating devices, modules and audible/visual notification appliances. The Instructor will guide the class through a series of hands-on application exercises with this fully functional system. The day will conclude with an exam.

- Each attendee will need to provide a USB thumb drive
- FS-Tools will be provided by the Instructor
- Successful completion of the program provides a three year technician certification
- Lunch will be provided.
- **Laptops are required for this class.**
- **Course Tuition: \$150**
