

**LOGIC PLUS™**

# LOGIC PLUS™

## RANGE INTRODUCTION

Logic Plus™ wiring devices from MK Electric have been designed to perfectly complement modern interiors, offering an unobtrusive and sophisticated look totally in keeping with today's design.

Technically, they exceed British Standard requirements with patented features that make these products the most advanced and safest available.

Logic Plus™ products are made from a high grade thermoset material which has an inherent antimicrobial property. In independent tests, the Logic Plus™ products were equal to, or exceeded, competitor 'Anti-Bac' products when tested for resistance to MRSA, E.Coli, Salmonella and Klebsiella pneumoniae.

They are easy to install and available through our extensive distributor network. The range is backed by MK's quality and reliability and provides the largest selection of wiring devices in any single range.

### HOW TO SPECIFY

A Urea moulded Anti-Bacterial range of wiring accessories, designed with a soft curved edge and a chamfered top edge that prevents dust collection, whilst offering a slim unobtrusive appearance. Cable connections must be upward facing, with easy to identify white markings on a dark background and grouped in a straight line with captive terminals screws for ease of installation. All sockets to have a 3 pin operated shutter safety mechanism and double pole switching, with the contacts arranged such that the neutral pole makes before and breaks after the live pole to improve safety.

### FEATURES & BENEFITS

#### TOTAL SAFETY

3-pin operated 'child resistant shutter system', which is designed to inhibit access to the electricity supply, unless all 3 pins of a standard British 13A plug are in position. Logic Plus™ products include an inherent antimicrobial property as a result of the high grade thermoset material used to manufacture.

#### UNRIVALLED QUALITY AND RELIABILITY

Products are made from the very best materials and production processes. All products are 100% tested.

#### QUICK AND EASY TO INSTALL

Features to ensure a quick and easy installation come as standard across the range, including in-line terminals, funnel entrances to terminals, backed out and captive screws and clear terminal markings.

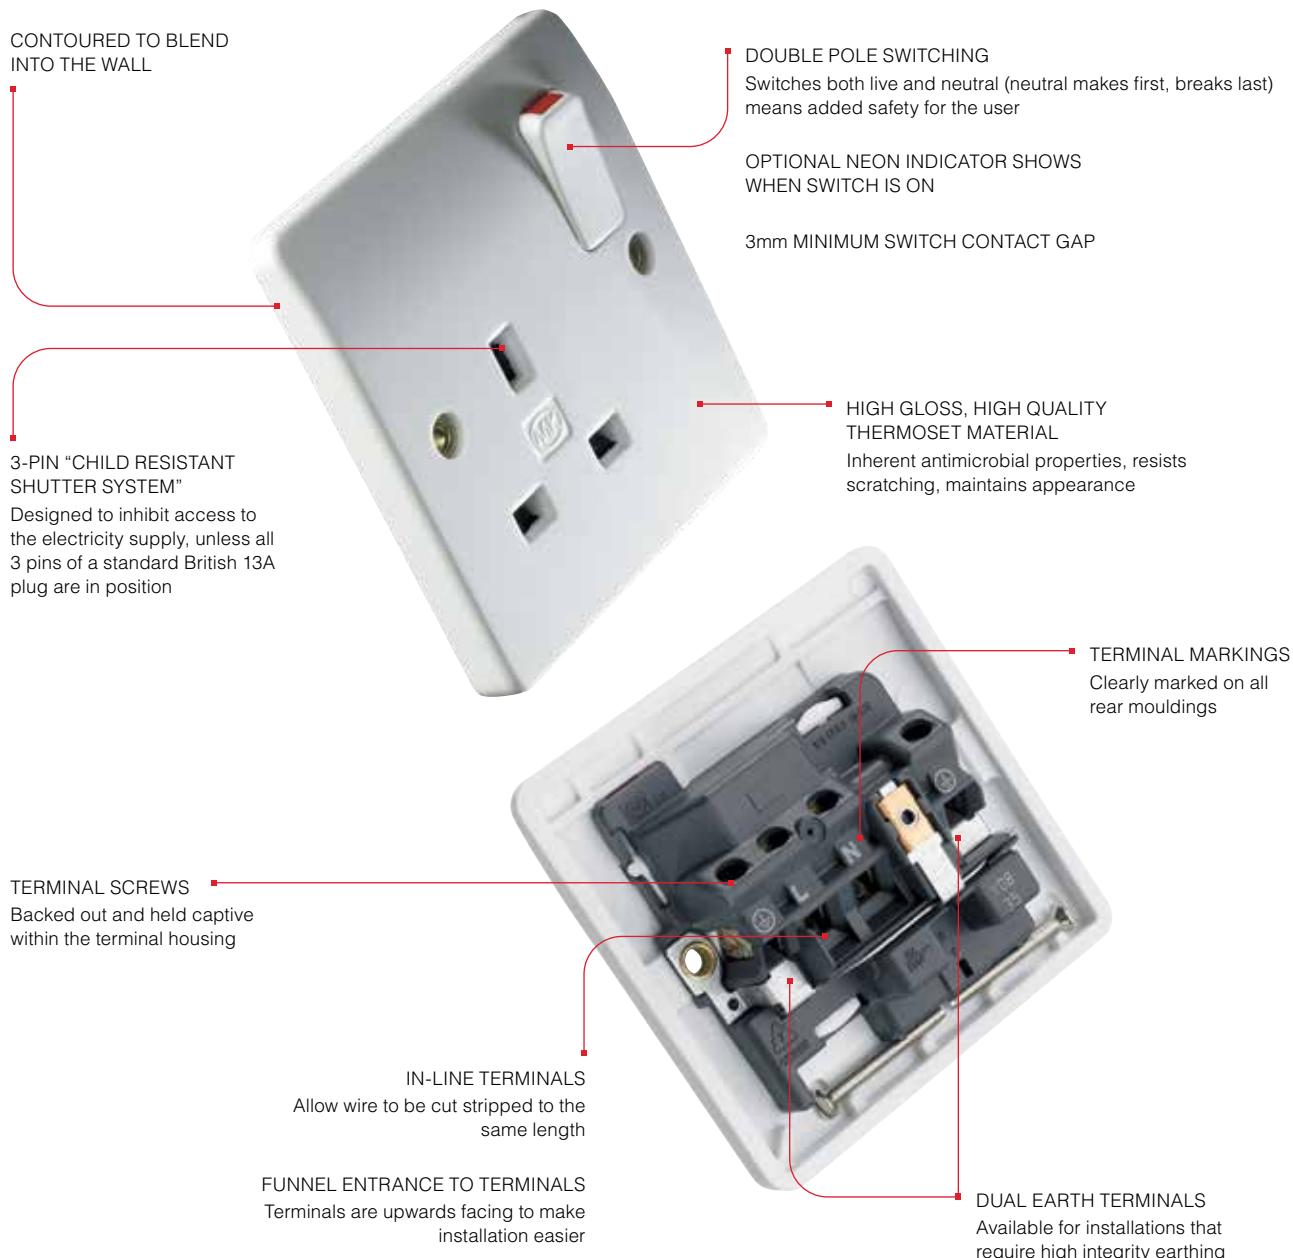

#### EXTENSIVE RANGE

Outstanding selection of wiring devices providing a total solution.

#### 20 YEAR GUARANTEE

Gives total peace of mind to you and your customers. (Up to 10 year guarantee on electronic products)

# Logic Plus™

Comprehensive range of Part M compliant products including socket outlets with outboard rockers, wide rocker switches and graphite coloured frontplates

Combined TV, FM, DAB, satellite and telephone sockets save on installation time and space

Simple but effective screwless cord grip on connection units – securely holds the cable

# Logic Plus™

## Specification Notes

The 3 pin operated safety shutter makes Logic Plus™ sockets the safest available.

Many sockets are fitted with two earth terminals to provide high integrity earthing.

Terminals are grouped in-line with terminal screws backed out ready for easy wiring. Clear marking on dark background makes the terminals easily identifiable.

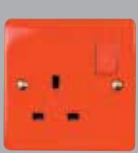

## Switchsocket Outlets

This design incorporates a double wound  
isolating transformer rated 20VA at 230 or  
115 volts it meets BS EN 61558 making  
it safe for use in bathrooms. Insertion of a  
shaver/toothbrush plug automatically  
switches on by energising the primary  
side of the isolating transformer - removal  
automatically switches off. The transformer  
is protected against overload by an  
automatic solid state overload device with  
automatic resetting.

Fully screened non isolated TV outlets  
containing a combination of single, TV/  
FM Diplexer and TV/FM/SAT Triplexer  
use for within digital TV systems and  
interactive TV services. Single outlets  
for connection to a single TV, FM or  
Satellite co-axial aerial lead.

TV/FM diplexer units for connection to a single co-axial aerial lead with combined  
TV and FM signals.  
TV/FM/SAT triplexer units for connection to a single co-axial aerial lead with  
combined TV, FM and Satellite signals

These products are fully compatible with Labgear TV distribution systems and are approved for use in "Sky Homes" and "Homes On" specifications
