

INTEGRATED OPERATIONS BUILT ON SECURE FOUNDATIONS

Optimize the surveillance oversight of
your facility to enhance your awareness,
responsiveness and operational efficiency

Honeywell Digital Video Manager
(DVM 2025)

Honeywell

RESPONSIVE SAFETY FUELS EFFICIENT OPERATIONS

Honeywell Digital Video Manager (DVM) gives you smart video network management built on a resilient platform that's designed to integrate new capabilities such as the latest IP cameras, video analytics and encryption so you can more effectively maintain vigilance and mitigate risk while enhancing the efficiency and safety of your operations.

OPTIMIZE YOUR OVERSIGHT: HONEYWELL DVM 2025

The latest release updates your capabilities to achieve seamless integration, robust awareness and detailed insights through enhanced map-based visibility across your site.

- **Modern, web-based surveillance** allows anywhere, anytime monitoring of your site
- **Improve performance and stability** with Microsoft compatibility for Windows® 11, Windows Server® 2022, Windows Server 2025, and SQL Server® 2022
- **DVM Status app** provides dashboards that give you insight into the health of all cameras and video servers
- **Audit log investigation interface** enables you to perform searches and drill down on all of the events that happened in your system at any given point in time.

REINFORCE OPERATIONAL EFFICIENCY

Honeywell DVM's deep integration with EBI enables operators to respond with greater accuracy and fewer clicks, using automated EBI workflows and a faster "single pane of glass" experience across systems.

AUTOMATE THE USER EXPERIENCE

Automation and mobile access help users stay alert to activity throughout the site, with easier remote management of alarms, video systems and access control.

IMPROVE CYBERSECURITY

Protect your site from cyber risks, improve monitoring of camera statuses, and help maintain IoT devices with the latest firmware updated to help protect against cybersecurity threats.

BUILD RESILIENCE

Honeywell DVM 2025 has a new recording engine that improves file and database management to enable faster indexing and searching of recordings.

PROTECT AND SIMPLIFY UPGRADES

Maintain continuity and reduce risk. Upgrading to Honeywell DVM 2025 is smoother than ever before.

You no longer need to uninstall the previous system. The upgrade is able to use the data from the existing running system.

PART OF THE HONEYWELL INTEGRATED OPERATIONS PLATFORM

DVM natively integrates with Enterprise Buildings Integrator (EBI) and the Command and Control Suite (CCS), giving you intuitive, map-based control of your building operations, video surveillance system, and incident response.

Protect your people and your property more effectively with Digital Video Manager (DVM)
