THE NEXT GENERATION OF OPERATIONAL EFFICIENCY

Improve your building's energy efficiency and safety with integrated operations

Honeywell Enterprise
Buildings Integrator
(EBI 2025)

Honeywell

BETTER OPERATIONAL EFFICIENCY STARTS WITH INTEGRATED AUTOMATION

Honeywell Enterprise Buildings Integrator (EBI) can track, control and automate the management of your building's operations in one place. That's why it's the system of choice for integrating and operating complex facilities and critical operations around the world, from airports and healthcare facilities to some of the world's most iconic buildings.

UPGRADE YOUR OUTCOMES WITH EBI 2025

This release enables you to achieve seamless analysis and control of your site across systems, with robust automation and comprehensive insights via the enhanced, geospatial, map-based interface.

- **New point server interface for OPC Unified Architecture** acts as a client and supports security profiles, encryption, and authentication
- **Improve performance and stability** with Microsoft compatibility for Windows® 11, Windows Server® 2022, Windows Server 2025, and SQL Server® 2022
- **Protect your operational technologies (OT)** with the latest best practices for encryption and cybersecure design
- **Gain expanded device support** with the latest version of BACnet® BACstac®, as well as an expanded range of access control and life safety devices
- **Leverage improved scalability** and cloud-integration options

OPTIMIZE OPERATIONAL EFFICIENCY

Respond with greater accuracy and fewer clicks using new automated workflows and a faster "single pane of glass" experience across systems.

ENHANCE OPERATOR AND OCCUPANT EXPERIENCES

Streamlined system management enhances awareness and convenience, with increased automation and mobile access for easier control of occupant comfort, response to alarms, and remote management of video systems and access control.

IMPROVE CYBERSECURITY

A complete refresh of the core operating system and built-in SQL Server better protects your site from cyber risks.

BUILD RESILIENCE

Maintain uptime and continuity. The Honeywell Integrated Operations platform is available with hot standby active-active redundancy and can be hosted via your cloud or secure Honeywell cloud access.

DEMONSTRATE COMPLIANCE

Manage and document compliance with numerous standards and regulations including UL approved, U.S. SAFETY Act approved, and new options for US FDA compliance with Title 21 CFR Part 11.

SUPPORT ENERGY SAVINGS

Support goals for environmental, social and governance (ESG) and sustainability, such as LEED certification, with the updated Energy Manager module, which includes responsive, web-based reports to better monitor and optimize energy use.

PART OF THE HONEYWELL INTEGRATED OPERATIONS PLATFORM

Honeywell EBI natively integrates with Digital Video Manager (DVM) and the Command and Control Suite (CCS), giving you intuitive, map-based control of your building operations, video surveillance system and incident responses.
